"...But God does not take away life; instead, He devises ways so that a banished person may not remain estranged from Him." 2 Samuel 14:14

## God Wants You!

Recently, when I went to get my morning coffee while at JAARS, a friend shared the above passage with me. The more I thought about this passage, the more it impacted my view of God. Our God is not a distant God. Our God is not a passive God. Our God is an active God, devising ways to put Himself in people's paths to challenge their beliefs! He desires for them to come to know Him and is actively pursuing people of every nation and language!

At JAARS, we believe God wants us to use new technologies and new communication mediums to bring God's message of hope and salvation to all people. Wycliffe isn't only about translating the Bible, but about transforming people's lives through the Word of God. To do so we use the internet, solar powered mp3 players with audio recordings of the Bible, movies such as the Jesus Film and the Luke Video, and of course the Bible as well as much more. We are excited whenever we hear of new technologies because we think, "Wow, God has devised a new way to make himself known!" Then we set about discovering how God would have us use these technologies in His service.

If you would like to learn more about how Wycliffe is pioneering the use of new technologies in missions, please visit: [www.jaars.org](http://www.jaars.org).

### Wycliffe is a Faith Based Mission

This means each missionary must gather a team of financial partners who give to meet the daily living expenses of the missionary.

The benefit in this approach is that many are blessed by participating in missions even when they cannot go themselves.

If you would like more information on becoming a financial partner, please contact me today!

If you know of others who are mission minded, would you prayerfully consider passing their contact information to me so I may contact them directly?
